

HOW IT WORKS

1.  **PACKAGE ARRIVES** with all of the devices and tools needed for officers and admins to get started immediately.

2.  **SYNC** existing inmate data with the JailCore dashboard to get your entire facility up and running in minutes.

3.  **START COLLECTING, MANAGING & CREATING REPORTS** to ensure core compliance of state-mandated standards and increase protection from future liabilities.

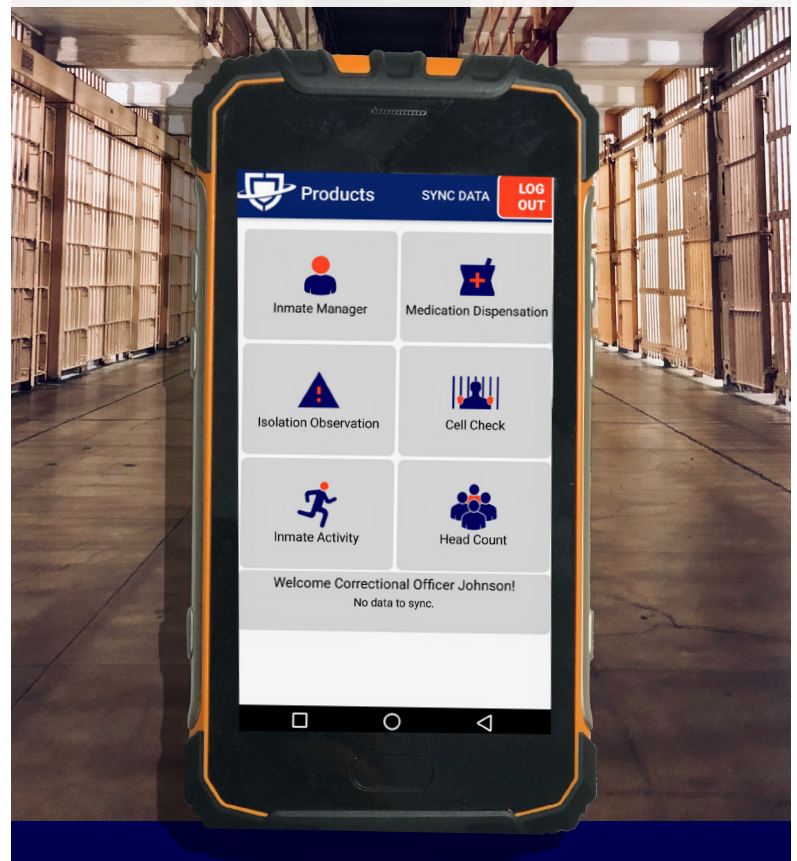

JailCore

Core. Standards. Simplified.

**CORRECTIONAL FACILITY
MANAGEMENT
& COMPLIANCE
FROM THE PALM OF YOUR HAND**

LET'S SOLVE YOUR ISSUES

Top correctional facility administrators cite the same three immediate needs for increased compliance and decreased liability:

Supervisors need a **real-time, reliable view** of officer work flow and inmate status.

A locked down application gives **confidence that tasks are actually performed** after scanning a specially encoded cell token.

Accurate documentation to support training, management and reduction of liability.

WHY JAILCORE

JailCore is an innovative, cloud-based mobile application built to streamline hundreds of daily activities that sync to a web-based administrator dashboard.

This strategic combination works together to ensure facility success, and was created by inside experts solving real issues they experienced.

ACCOUNTABILITY

The application is locked down until an officer scans a specially encoded cell token, allowing documentation of actual tasks completed, further ensuring compliance.

EFFICIENCY

Replace paperwork with pre-populated data, and reduce human error in inmate care using an auto-directed work flow and reporting system.

TRANSPARENCY

Real-time view of all activities within a facility, and the ability to create a detailed report with supporting documentation in seconds.

RISK MITIGATION

Reduce facility liability with auto-synced, real-time digital records including photos and signatures at the touch of a button.

SIMPLIFICATION

A simple-to-use application that boils down a complex system to a straightforward work flow with a fool-proof checklist of tasks for all levels of education and experience.
