ARMR HPR 3.0

What is it? What is Included?

81% of Agents were interested in selling a risk management program to commercial properties which includes an insurance policy and no cost water intrusion loss control for their prospects and insureds.

ARMR HPR 3.0 is the only program that combines an Engineered Environmental Insurance Placement with proactive loss control for commercial property owners and managers across the country who want to better manage the various environmental loss exposures at their properties in a time of uncertainty.

What is ARMR HPR 3.0?

Engineered Environmental Insurance Policy
Sophisticated Proactive Loss Control*

*Performed by our partners through the CR USA Network
