Protecting Commercial Buildings
and Businesses Since 1979

In The Business Of Protecting Businesses

Whether you're a restaurant entrepreneur, property owner, manufacturer or a neighborhood retailer, you've worked hard to build and grow your business. You need the right insurance to safeguard it from the risks encountered in your day-to-day operations.

At Granada Indemnity Company, we have the experience, knowledge and coverages to protect you from those risks and keep your business running smoothly.

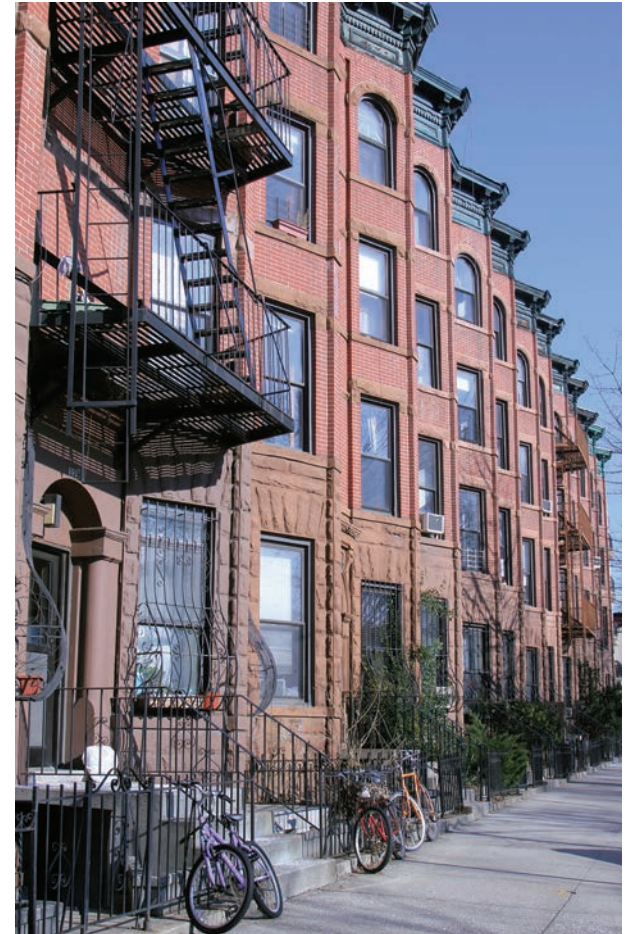

Big Protection For Your Small To Mid-Sized Business

We provide the security you need at a great price, so you can focus on what's important to you — your business. With multiple options to choose from, it's easy to find the right blend of insurance products to fit your needs:

- **Commercial Package Policy** – A Commercial Package Policy (CPP) allows you to combine several individual coverages into a single policy. It's flexible, so you can pick and choose the coverages you need to properly protect your business.

- **Property** – Property coverage is a necessity for any business. It safeguards the property your business owns and leases, such as furniture, equipment, inventory and fixtures against loss or damage when a fire, theft or another type of disaster strikes.
- **General Liability** – In the course of doing business, anything can happen. General liability coverage protects you and your business if

you're sued by someone for bodily injury, property damage, or negligence related to your products, services or operations.

- **Business Owners Policy** – A business owner's policy (BOP) bundles property and general liability coverages into a single insurance policy. Plus, businesses with specific needs can tailor their Granada Indemnity BOP by choosing among three coverage levels.
