

McKee Risk Management's Construction Practice focuses on defined segments of this industry. We capitalize on our underwriters' technical expertise and provide creative, comprehensive solutions to middle market contractors. Our commitment is to provide world class Underwriting, Claims Handling and Risk Engineering to our customers. In the past, the industry has only provided this level of attention to the largest construction accounts.

McKee has earned broad risk selection and pricing authority with our Carrier Partners. We can respond quickly to your clients' needs and offer multiple insurance solutions. Our customers have a proven track record of profitability and have earned the right to be recognized and rewarded for their performance.

ARTBA ENDORSEMENT

As of 2013, The American Road and Transportation Builders Association (ARTBA) entered into an exclusive agreement naming McKee Risk Management as their Insurance Program Manager. McKee brings a proven underwriting expertise in understanding the complex exposures unique to this demanding contractor class.
