

Veterinary Professional Liability Program

Protecting Your Livelihood While You Focus on Care

When was the last time you reviewed your professional liability insurance coverage; or considered the potential financial burden of a lawsuit for an allegation of substandard care? How would you pay legal expenses if the state licensing board acted against you? Without comprehensive professional liability protection, your reputation and ability to practice veterinary medicine could be at risk.

We understand your business and professional challenges. Since 1965, the Safehold Veterinary Insurance Program has offered a proprietary suite of risk management solutions for licensed veterinarians. Uncommon to most insurance providers, the Veterinary Professional Liability Program is led by a licensed veterinarian who understands the unique risks of the veterinary industry. The full team includes dedicated underwriters, claims adjusters, and risk managers who solely support veterinary professionals like you.
